

ADAPTIVE SKI PASS GUIDELINES

This special pass is for a person who requires adaptive equipment or adaptive ski techniques in order to ski. They must also be legally blind, deaf, or have an amputation, physical condition or cognitive disability. Simply having a disability or illness alone does not meet the criteria for an adaptive pass. Both aspects of the criteria must be met for a pass to be issued by Steamboat Ski & Resort Corporation. The pass committee will review each application. If you choose to not completely answer the question on the application you may apply for a regular season pass.

The following conditions may constitute a disability that qualifies for the Adaptive Pass:

Blind: Legally blind (20/200 in the good eye) to totally blind. Individuals with one good eye are not candidates. Physician diagnosis may be required if there are any questions.

Amputations: Any single or combination of hand, arm, foot, leg amputations.

Deaf: This pass is for individuals that use sign language or lip reading as a primary form of communication. This pass is not for individuals that have a mild hearing loss. This pass is for individuals who wear two hearing aids and are profoundly deaf in ears, a hearing loss of 35 decibels or more in both ears. You need to have gone to special schooling to learn sign language or lip reading.

Cognitive Disabilities: A mental impairment that affects the ability to process information and/or coordinate and control the body, which limits the individual's ability to navigate the mountain safely and independently. (e.g. Severe Cognitive impairments, Autism, Down Syndrome, TBI - traumatic brain injury that results in severe cognitive impairments. An IEP is required for children with cognitive disabilities.) Individuals that are on social security disability will be reviewed case by case.

Physical Disabilities: Any individual with a permanent physical disability that requires adaptive equipment or adaptive ski technique. Having a disability or illness alone does not qualify for an adaptive pass. Individuals that are on social security disability will be reviewed case by case. Adaptive equipment may include, but is not limited to mono skis, bi skis, dual skis, outriggers, ski bras, walkers and harnesses.

ADAPTIVE PASS VERIFICATION

Steamboat Ski & Resort Corporation offers an Adaptive Pass to people with specific disabilities at a significantly discounted price. In some situations, verification is required from a physician. Please complete the form below. Each application will be evaluated on a case-by-case basis. This special pass is for a person who requires adaptive equipment or adaptive ski techniques in order to ski. Simply having a disability or illness alone does not meet the criteria for an adaptive pass. Both aspects of the criteria must be met for a pass to be issued by Steamboat Ski & Resort Corporation.
